

Dated on 29 May 2020

Kyutech's policy on classes and activities on/off campus (Changes and updates after the notice dated 15 May)

The Government's declaration of a state of emergency has been lifted on 25 May all over Japan, but here in Kitakyushu city where Kyutech's 2 campuses are located, we are seeing a second wave of COVID-19 coming.

To respond to the situation, Kyutech's all campuses will be kept close until 29 June. However, the classes, entry to campus, extracurricular activities are allowed with some restrictions as follows.

Even if such activities are allowed, it is required to take thorough infection preventive measures.

Please be noted that the policy is subject to change depending on the situation.

1. Classes

- Until 29 June

Only remote classes are provided during the 1st quarter. (Including the courses of the spring semester)

- From 30 June to 30 September

For the courses of the 2nd quarter and the summer intensive courses, classes will be delivered in remote class in principle. Some experimental and practical works may be provided in face-to-face class.

2. Entry to campus

The students under following cases are allowed to enter the campus. See the details on the University website.

- 1) The students who don't have internet access other than the on-campus network to take remote classes
- 2) The students who need to enter campus for activities related to job search
- 3) The students who acquired the permission from Dean through their supervisor for research activities etc.

*Only senior students and graduate students will be permitted in accordance with the guideline of each campus. See the details on the websites of each school and department.

- 4) The students with entry permission for borrowing books or for other procedures at the University Library

3. Extracurricular activities

The activities will be allowed to start in phases. (The schedule is yet to be determined.) The leaders of the groups (clubs and teams) are required to take the online lecture on infection prevention on 10 and 11 June. And then the groups need to submit an activity plan based on the online lecture and the guideline of the associations and leagues which each group belongs to. The groups which take preventive measures well enough such as facility and equipment checking will be allowed to start the activity.

*The details will be notified by Sekizenkai (責善会).

*For the groups which applied for this year's Student Project, notifications will be sent to the leaders.

4. Others

●When entering campus with permission, please be well noted to avoid crowdedness, close contacts and confined spaces, and make sure to keep social distance. The students who keep recording their health condition with Self-Monitoring Sheet and have flu-like symptoms, they are prohibited to enter campus. When you have flu-like symptoms, follow the [Flowchart for COVID-19 control: When living in Japan \(Updated 19 May\)](#) on the University website.

*Please be noted that the flowchart has been updated and the line in the previous version "Consult with the Returnee and Contact Consultation Center when you have fever of 37.5°C or higher" has been deleted.

●It is requested to cancel gatherings (eating and drinking) with unavoidable close contacts for the time being.
