

18 June 2021

## **Kyutech's policy on precautionary measures for COVID-19 under pre-emergency status**

The declaration of a state of emergency issued for Fukuoka prefecture will be lifted after 20 June, but the status will be switched to the pre-emergency and it is still requested to refrain from non-essential outings.

Kyutech issues a notice as follows, and also requests all the students to exercise thorough primary measures to prevent infection (wearing a mask, avoid 3Cs, sterilizing hands and fingers) and to be more cautious and responsible for your actions.

### **1. Restart of extracurricular activities**

Extracurricular activities can be restarted on and after 21 June, but only as activities allowed under the "Risk level 3: Strict Caution" in the restart plan of extracurricular activity.

The University will provide an infection precautions lecture including heatstroke prevention in earlier July. The representatives of activity groups shall participate in it.

However, the activities can be prohibited again in accordance with the situations of; the infections all around Japan, Fukuoka prefecture, Kitakyushu city, Izuka city and neighboring areas; local medical institutions under strain.

### **2. Exceptions**

Although the declaration of a state of emergency will be lifted, the exceptions remain to be limited. About the activities such as grade examinations, games and matches for promotion to higher league, and contests to present achievements of long-term activities and so on, they can be approved as exception with permission, provided that precautions guidelines are prepared by the organizers. However, the activities should be within Fukuoka prefecture.

For the permission, clubs and teams need to submit an activity plan to Student Section of each campus. Each plan will be checked carefully by the University (university doctor and Student Section) and permitted by Dean.

### **3. Prohibition of events and actions with higher risks**

The declaration of a state of emergency to be lifted, but Kyutech prohibits the students from the events and actions with higher risks of infection such as; drinking parties (including public drinking); dining in groups; parties (both indoor and outdoor); karaoke parties, and so on.

#### **4. If you have fever or flu-like symptoms**

Contact the University Health Center first. Then call your home doctor if you have, and follow their instructions and take medical examination. If you don't have a home doctor, call a consultation center in your residential area and follow their instructions. You can find the contact list on the flowchart below. The flowchart also gives you a guidance on suspected COVID-19 symptoms and home recuperation period.
