

Flow chart for COVID-19 control

After getting vaccinated for COVID-19

You have side effects

If you have any of the following symptoms, there is a possibility that you have got infected with COVID-19

■Cough ■Breathlessness (Shortness of breath) ■Runny nose ■Sore throat ■Smell and taste disorder (Cannot smell or taste even though you don't have nasal congestion) ■Fever, headache, general malaise, digestive disorders for more than 3 days

You have fever for more than 3 days

You meet the following 3 conditions

1. Fever gone down within 2 days (without taking fever reducer for more than 8 hours)
2. Having no COVID-19 like symptoms (shown in the red frame on upper left)
3. Feeling well enough to go to campus

Follow the flow chart for COVID-19 control:
When you have fever or flu like symptoms

<https://www.kyutech.ac.jp/english/en-news/entry-7544.html>
