WHY KYUTECH?

Alex Yeoel (Chandigarh, India)

I was born and brought up in Chandigarh, India. In my research, I explore how cross-cultural dynamic processes (additive and subtractive) shape the promotion of local cultures and identities. Furthermore, I apply the cultural logic of practices and space within a comparative cultural framework, which helps me understand the ways in which cultural values are constructed and reproduced through everyday interactions.

I had the opportunity to visit Kyutech and also met the president, Dr. Kenji Koyama. It is a wonderful university where students are provided with the opportunity to immerse themselves in the local culture and practice their language skills. Kyutech also offers various opportunities for students to participate in joint research and international conferences. I enjoy the Kyutech campus facilities as well as the abundant recreational activities available on the Kyutech campus.

The Kyutech campus is excellent for students who enjoy outdoor activities as there are several parks and sports facilities within close proximity. Kyutech also provides various opportunities for students to participate in joint research and international conferences. Kyutech is the best choice for students who are interested in a university with a strong commitment to community engagement.

Kasun Anuradha (Kandy, Sri Lanka)

I grew up in Kandy, Sri Lanka, and studied at a school that provided a strong foundation for my future studies. I am currently studying at Kyutech University in Japan, where I have been able to continue my education in the field of engineering. Kyutech has provided me with numerous opportunities to participate in joint research and international conferences. The Kyutech campus is fantastic, with plenty of green spaces and recreational facilities.

As a student at Kyutech, I have had the opportunity to participate in various extracurricular activities, such as sports and cultural events. I have been able to connect with students from all over the world and have made many new friends. Kyutech has been an amazing experience for me, and I am grateful for the opportunities it has provided me with.

I was born in Kandy, Sri Lanka, and I have always been interested in engineering. I studied at a school in Kandy that provided a strong foundation for my future studies. I am currently studying at Kyutech University in Japan, where I have been able to continue my education in the field of engineering. Kyutech has provided me with numerous opportunities to participate in joint research and international conferences. The Kyutech campus is fantastic, with many green spaces and recreational facilities.

ACADEMICS

Undergraduate Schools

School of Engineering (Tobata Campus)
- Department of Mechanical and Control Engineering
  - Mechanical Engineering Course
  - Space Engineering Course
  - Control Engineering Course
- Department of Civil and Architecture Engineering
  - Architecture Course
- Department of Electrical and Electronic Engineering
  - Electrical Engineering Course
  - Electronic Engineering Course
- Department of Applied Chemistry
- Department of Molecular Science and Engineering
- Department of Integrated System Engineering
- School of Computer Science and Systems Engineering (Iizuka Campus)
- Department of Mechanical and Control Engineering
- Department of Mechanical and Control Engineering
  - Mechanical Engineering Course
  - Control Engineering Course
- Department of Electrical and Electronic Engineering
  - Electrical Engineering Course
  - Electronic Engineering Course
- Department of Applied Chemistry
- Department of Molecular Science and Engineering
- Department of Integrated System Engineering

Graduate Schools (Reorganization from April 2014)

Graduate School of Engineering (Tobata Campus)
- Department of Mechanical and Control Engineering
  - Mechanical Engineering Course
  - Space Engineering Course
  - Control Engineering Course
- Department of Civil and Architecture Engineering
- Department of Electrical and Electronic Engineering
- Department of Applied Chemistry

Graduate School of Computer Science and Systems Engineering (Iizuka Campus)
- Department of Advanced Informatics
  - Department of Informational Informatics
- Department of Creative Informatics

Graduate School of Life Science and Systems Engineering (Takamatsu Campus)
- Department of Biological Functions Engineering
  - Department of Life Science and Systems Engineering
- Department of Human Intelligence Systems

Career Paths after Graduation - Employment of International Students

Many of our international students have been employed by Japanese companies after graduation. The Kyushu Institute of Technology is located in the southern part of Kyushu, also known as Okinawa Island, with a well-developed transport network in Fukuoka Prefecture. Kyutech offers high-quality, career-oriented education by providing innovative courses and outstanding instruction. Our close links with industry and cutting-edge research facilities, in addition to a strong research culture, ensure the success of the engineers we produce.

Companies employing international students (in graduate English)

- Komatsu Ltd.
- Hitachi Zosen Corporation
- Hitachi, Ltd.
- FUJITSU TEN
- Fujitsu, Ltd.
- CANON ELECTRONICS INC.
- NEC Corporation
- MITSUI ENGINEERING & SHIPBUILDING CO., LTD.
- Mazda Motor Corporation
- KONICA MINOLTA, INC.
- KAJIMA CORPORATION
- TOSHIBA CORPORATION
- RIKEN
- RICOH COMPANY, LTD.
- PANASONIC CORPORATION
- NTN CORPORATION
- NOK CORPORATION
