Annual Events for International Students

| Month | Event |
|------------------|---|
| April, October | Orientation and Welcome Party |
| December | International Friendship Party (a social gathering for international students, their family members and Kyutech staff) |
| Spring or Autumn | Field Trip for International Students |

Student Life & Support

Tuition Fees and Other Expenses

Tuition and Other Fees

Tuition and other fees are shown below.

| (Yen, as of 2019) | | | |
|---|------------------|--------------------------------|-----------------------|
| Fees | Application Fee | Matriculation Fee | Tuition Fee |
| Payment Due | upon application | upon admission or registration | April and October |
| Undergraduate Student | 17,000 | 282,000 | 267,900 per half year |
| Transfer Student (3rd-yr Undergraduate) | 30,000 | 282,000 | 267,900 per half year |
| Graduate Student | 30,000 | 282,000 | 267,900 per half year |
| Research Student | 9,800 | 84,600 | 29,700 per month |

The tuition fee is subject to change at any time. In such case, students are required to pay the revised fee.

All undergraduate and graduate students are required to pay the following fees.

| (Yen, as of 2019) | | | | | | |
|--------------------------|-----------------------|---|------------------------|------------------------|---------------|---------|
| | | Personal Accident Insurance Premiums/ Comprehensive Insurance for Students Lives | Kyutech Student Fee | Kyutech SEKIZEN Fee | MEISEN Fee | Total |
| Undergraduate Student | 1 st -year | 40,710 | 20,000 | 23,000 | 36,000 | 119,710 |
| | Transfer Student | 21,880 | 10,000 | 13,000 | 28,000 | 72,880 |
| Master's Program Student | | 21,880 | 10,000 | - | 28,000 | 59,880 |
| Doctoral Program Student | | 31,380 | 10,000 | - | 32,000 | 73,380 |

Financial Support

Enrollment Fee Waiver and Postponement of Enrollment Fee Collection

Limited numbers of privately funded graduate international students (except research students) who have qualifications can receive Enrollment Fee Waiver (all or half waiver), and under the same condition, limited numbers of privately funded undergraduate and graduate international students (except research students), can receive Postponement Enrollment Fee collection.

Tuition Fee Waiver

Limited numbers of privately funded international students, who scored high marks and confront the difficulty of paying Tuition Fee, can receive Tuition Fee Waiver (all or half waiver).

Scholarship

Students can apply for various scholarships financed by Kyutech or other foundations. Monthly stipends vary, but generally they are in range between 20,000 and 150,000 yen. Nominees are selected depending on academic year and results, household situation, and residence status for each application.

No-interest Loan

International students can apply for a short term loan of an amount less than 100,000 yen with no interest, if he/she has any difficulties paying the tuition and/or matriculation fees, a rent or living expenses. Repayment period is 1 year from the date of the loan.

Housing

Most of international students are living in one of the dormitories, public housing, or private apartments.

Kyutech International House (TOBATA, IIZUKA)

International House on Tobata campus

International House on Iizuka campus

Each room of International House is equipped with a kitchen, refrigerator, bed or beds, and other furniture. It has a seminar room, a lounge, and a laundry room for common use. The period of residence is, in principle, no more than 6 months in order to secure rooms for new students.

Number of rooms and Rent

| | TOBATA | IIZUKA | RENT (yen, per month) | Note |
|--------------|--------|--------|-----------------------|---|
| For Singles | 35 | 11 | 5,900 | * No meals are provided. * Utilities (electricity, gas, water): Approximately 5,000 to 10,000 yen per month |
| For Couples | 5 | 2 | 9,500 | |
| For Families | 5 | 2 | 14,200 | |

Student Residence IIZUKA

Student Residence is the shared room dormitory for both international students and Japanese students. It has 20 units, and each unit consists of 3 private rooms for living with 3 students. Each unit is also equipped with a kitchen, shower, toilet, refrigerator, washing machine, microwave, table and other facilities. Each private room is equipped with a bed, table, chair, closet and other facilities. The period of residence is 1 year in principle.

| Number of Unit | Rent (yen, per person per month) | Utilities (electricity, gas, water) (yen, per person per month) | Note |
|----------------|-------------------------------------|--|------------------------|
| 20 | 15,000 | 5,000~10,000 | No meals are provided. |

Campus Life Support

Academic Supervisor

Academic supervisors provide academic and personal advices to students. If you have any concerns or problems, do not hesitate to talk to your supervisor.

Tutorial System

A tutor is assigned to each international student to support him/her to start a new life in Japan. International students can ask tutors about the things to do after arriving in Japan, such as notifying the residential address at Government Office, applying for National Health Insurance, opening a bank account, and so on.

Tutors also give some advice for studies and research, or anything to help international students become more accustomed to campus life.

The tutorial system is available for first 3 months from the arrival date.

Supporting Associations for International Students

Kyushu Institute of Technology Foreign Students Association (KITFSA)

The Kyushu Institute of Technology Foreign Students Association (KITFSA) was formed to promote better understanding and friendship among its members, Japanese students, Kyutech staff, and local residents through cultural, sports and recreational activities. KITFSA organizes many activities, such as the International Students Festival, sports activities and friendship events

Kyutech Fund

Kyutech Fund aims to support well-developed education and research, environment and facilities for research and education, student's activities, international exchanges, career path, and so on. International students also receive its support on having International Friendship Party and activities of KITFSA.

Japanese Language Courses

Kyutech offers Japanese language classes for international students.

Undergraduate Students

Undergraduate students can take Japanese language classes as a foreign language.

Graduate Students and Research Students

Kyutech offers Japanese language classes as extracurricular classes to graduate students and research students.

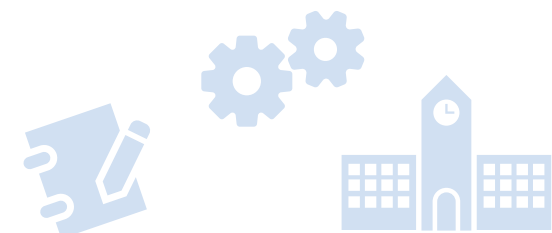

Career Education

Kyutech opens Business Japanese Classes for international students aiming to provide not only Japanese skill but also business manner which will be advantages when you look for a job.

Alumni Association (明専会 / Meisenkai)

Meisenkai is the alumni association of Kyutech with more than 30,000 members, and it has 59 chapters all over Japan and one oversea chapter in Beijing.

Meisenkai not only offers its members with opportunities for mutual friendship and publishes a bimonthly bulletin, but also provides financial support to research activities and facilities, and welfare support for faculty members and students.

Meisen Dormitory TOBATA

Meisen Dormitory is the student dormitory for 1st-year undergraduates of both international and Japanese students of School of Engineering (including privately funded and MEXT scholarship students). It has 20 rooms equipped with a private shower, bathroom, wardrobe, curtains, balcony, ports for LAN connection and phone, bed, desk and chair in each room. The period of residence is 1 year in principle.

| Number of rooms | Rent (yen, per month) | Utilities Charges (yen, per month) | Note |
|-----------------|--------------------------|---------------------------------------|------------------------|
| 20 | 15,000 | 8,000 | No meals are provided. |

Public Housing and Private Apartments

There are public housings such as prefectural and municipal housing for moderate rents in the cities. The conditions that must be satisfied to enter such housing depend on the individual organization. The available housing will be allocated by lottery or by screening based on a points system. The rent for private apartments varies depending on the size and the furnishing of the rooms. The average of rent is 30,000 yen to 35,000 yen a month. In addition, it is customary to pay a deposit (security money), key money, and a commission to the real estate agent, which can amount to 3 to 5 times the monthly rent.

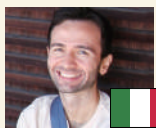

For both public and private accommodation utilities must be paid which vary from 5,000 yen to 20,000 yen a month, depending on your usage.

Global Cultivation Center TOBATA

Global Cultivation Center has 42 rooms available for 2nd, 3rd, 4th-year of undergraduates and all graduates of both international and Japanese students of School of Engineering. Each room is equipped with curtains, balcony, ports for LAN connection and phone, bed, desk and chairs. The period of residence is 1 year in principle.

| Number of rooms | Rent (yen, per month) | Utilities Charges (yen, per month) | Note |
|-----------------|--------------------------|---------------------------------------|------------------------|
| 42 | 15,000 | 6,000 | No meals are provided. |

Why Kyutech?

Enrico di Maria (Italy)

Doctoral Program, Department of
Life Science and Systems Engineering
Graduate School of Life Science and Systems Engineering

During my Master's Course, I had the opportunity to carry out an internship at Kyutech. This experience represented a milestone in my life, and that is why I decided to come back to Kyutech for the PhD in the field of agricultural robots.

Even though it is a challenging experience, I do believe it is valuable for my professional, educational and personal development.

Kyutech has high quality of research in most of the engineering subjects, and it offers the chance to work in a stimulating environment with students and researchers from all over the world.

A tutor is assigned to each new international student. This is very important to tackle the first difficulties (especially related with the language), and to feel soon part of a group of friends and colleagues. Kyutech also provides free classes to learn Japanese and help the students to speed up their proficiency of Japanese language.

Japan is an amazing country with a fascinating culture, and studying here offers the unique chance to compare different cultures and to widen our points of view.

It is an experience I highly recommend to all the students who are eager to expand their cultural background, both professional and personal.

Willa Ariela Syafruddin (Indonesia)

Doctoral Program, Department of
Computer Science and Systems Engineering
Graduate School of Computer Science and System Engineering

When I was in the final semester of my Master's degree, one of my professors who was a Kyutech alumnus recommended to continue my studies at Kyutech. One day in December 2015, I had the chance to visit Kyutech and was introduced to Professor Mario Koeppen, who eventually became my supervisor. I was more convinced to continue my studies at Kyutech after receiving a lot of feedback from my seniors, who have become alumni of Kyutech.

I am very grateful to Kyutech for having greatly benefited from my studies so far. One of them is Japanese classes for students who have no Japanese language knowledge at all. Iizuka campus also provides GCL (Global Communication Lounge) which was set up for international exchanges between international and Japanese students. GCL holds international events regularly at which I get a lot of international friends. Japanese students whom I met at these events help me a lot to make my life easier in Japan.

I strongly recommend continuing studies at Kyutech for people who want to gain much better experience from the field of technology and Japanese cultures, because the facilities are very adequate and the university staff is supportive for students to focus on studying calmly.

Guna Surendra Gossamsetti (India)

Doctoral Program (completed in March, 2019),
Department of Engineering
Graduate School of Engineering

When I was pursuing my undergraduate course at SRM University, India, I had the opportunity to study for 10 months at a foreign university which had student exchange collaboration with SRM. I wanted to challenge and study in a non-native English-speaking country, so Kyutech, Japan was my option which I consider today was the best choice of my life. Coming to Kyutech changed my life, career and motivation to achieve something.

During my 10-month stay at Kyutech, I met Prof. Koichi Yonemoto of Space System Laboratory and worked on the "Winged Reusable Rocket" project which motivated me to pursue my Master's and Doctoral course at Kyutech. I studied at Tobata campus which is the best location as it is affordable and livable for students. The student support services of the campus staff make your stay comfortable, and facilities such as library, cafeteria, medical center, and student dormitory are some of the best features of the campus. In addition, there are better chances of getting a scholarship for students with good academic performance. Kyutech also supports students to attend international conferences which would enhance your research ability. Job placement opportunities are considerable very high for Kyutech graduates because of the strong alumni. Therefore, if you gain some Japanese language skills through the Japanese classes of Kyutech, it would be an asset to get a job easily in Japan. I strongly believe studying at Kyutech have a positive impact for your career ahead.

Jingjing Yuan (China)

Master's Course (completed in March, 2019),
Department of Material Science and Engineering
Graduate School of Engineering

It was great to pursue my Master's degree at Kyutech. I wanted to come to Japan to study when I was in the third year of college. I chose Kyutech because I was interested in research of phase diagram calculation. After overcoming many difficulties and persisting in efforts, I finally achieved this goal. During the study at Kyutech, professors and classmates gave me a lot of help in study, so that I could proceed my research smoothly.

If you want to find a job in Japan, please take the Business Japanese Class at Kyutech. This class has a comprehensive analysis of the patterns of Japanese corporate recruitment, interview skills, and so on. There is also Career Center on campus to help you get the information about the company where you wish to go. I was not successful at job interviews in the beginning of my job hunting, so I visited Career Center for help. Under the guidance of this center, I successfully passed the interview and got the job offer from my favorite company.

Career Paths after Graduation - Employment of International Students

Many of our international students have been employed by Japanese companies after graduation.

Kyutech is located in the northern part of Kyushu, also known as Silicon Island, with 3 well-positioned campuses in Fukuoka Prefecture. Kyutech offers high-quality, career-oriented education by providing innovative courses and outstanding instruction. Our close links with industry and cutting-edge research facilities, in addition to a strong research culture, assure the success of the engineers we produce.

Companies employing international students who graduated Kyutech:
